

Shenzhen Chinst Illumination Company

Energy efficiency label - E

Halogen - Reflector Lamps

Data-Sheet

Halogen lamp with a dichroic reflector (Female Pole)

Lamp type – Single Ended

Nominal Wattage -105W

Nominal Current – 6.6A

Current type- AC

Frequency – 50Hz

Lamp Base – Connector C Female flat Connectors

Full Product Length - 48mm

Durable construction ensures resistance to vibration effects

Axial cd – 32000

CCT – 3300K

Lifetime - 1000h

To prevent damage to property and personal injury, lamps must be used only in appropriate luminaires and with protective mechanisms (e.g., wire guards, shields, and other safety devices). This ensures that, in the event of a lamp explosion, no component—such as glass shards—can escape and injure people or damage objects, and that ultraviolet radiation does not escape to the outside.
