## LED Wall Wash Light 30W

### ► General Description

1, the lamp is made from famous power supply of input Voltage 85-265V and efficiency more than 89% and high PF.

2, its lighting source is famous SMD3030, that assure its long lifespan.

3, excellent aluminum alloy are used as cooler for this lamp.

4, its pc lens is of lighting penetration rate more than 92%, that assures the light soft and smooth.

5, its current arrangement of LEDs passed many test as well as professional optical technology ensures its high luminous efficiency reach 120lm/W,

7, its output voltage controlled within DC45V as well as earth wire make it more safety.

8, IP66 grade

9, beam angle: 150-550

10, 5-6 year warranty

## ► Product Specification

Model	CST-LP-01-30W
Real Power	30±1W
Input voltage	AC85-265V
Frequency	50/60Hz
LED Quantity	SMD3030 36pc
Luminous Flux	120lm/W
Beam Angle	150-550
Housing Material	Aluminum Alloy
Size	205*155*135mm
CCT	2700-6500K (Optional)
Driver Type	Famous brand (model: ZH-HLB-30H-42)
Driver Efficiency	>0.9
Power Factor	>0.95
IP/IK Rating	IP66/IK08
Rotatable Angle for Installation	270°
Application	-25~60° C, 10%~90% Humidity
Luminous Decay	Less than 5% for 5000hours
Designed Lifespan	>50000hours
Certificate	UL/TUV Standard,SAA,CE(EMC,LVD),ROHS,FCC
Warranty	5-6 years

## ► Packing

8pc per carton--48\*48\*33cm/23.8kg

## ► Installation

- 1, It has 3 cores( Firewire, null line,ground lead )sheathed lines.
  - 2, Ground wire must be connected to the ground to make the lamp reliably,and work steadily.
  - 3,After the connection,must be wrapped with insulating tape to make the insulation for each other is reliable,waterproof is required.
  - 4, Tighten the screw tightly to avoid the lamp fall or become slack.
- All the installation must be finished by specialized persons.

## ► Application

It is widely used in outdoor decoration lighting.
